This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) the practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology. In response to your comments, we may revise this ICR or decide not to seek approval of revisions of the Collection. We will consider all comments and material received during the comment period.

Information Collection Request

TITLE: CG-2554 Private Aids to Navigation Application. CG-4143 Application for Class I Private Aids to Navigation on Artificial Islands/Fixed Structures.

OMB CONTROL NUMBER: 1625-0011.

SUMMARY: Under 14 U.S.C. 81, the Coast Guard is authorized to establish aids to navigation. Title 14 U.S.C. section 83 prohibits establishment of aids to navigation without permission of the Coast Guard. Title 33 CFR section 66.01-5 provides a means for private individuals to establish privately maintained aids to navigation. Under 43 U.S.C. 1333, the Coast Guard has the authority to promulgate and enforce regulations concerning lights and other warning devices relating to the promotion of safety of life

and property on the artificial islands, installations, and other devices on the outer continental shelf involved in the exploration, development, removal, or transportation of resources therefrom. Title 33 CFR section 67.35-1 prescribes the type of aids to navigation that must be installed on artificial islands and fixed structures.

To obtain approval to establish a private aid to navigation, applicants must submit either CG Form 2554 (Private Aids to Navigation Application) or CG Form 4143 (Application for Class 1 Private Aids to Navigation on Artificial Islands and Fixed Structures). The forms collect information about the private aid to navigation (type, color, geographic position), as well as the applicant's contact information. The information is stored in the Coast Guard's Integrated Aids to Navigation System (I-ATONIS). I-ATONIS is the Coast Guard's comprehensive database for managing information about aids to navigation.

Collecting the applicant's contact information is important because it allows the Coast Guard to contact the applicant should there be a discrepancy or mishap involving the permitted private aid to navigation. Certain discrepancies create hazards to navigation and must be immediately corrected or repaired. I-ATONIS has user access controls in place to govern who may view or access the information. The contact information is only available to Coast Guard aids to navigation personnel and contact is only initiated if the private aid to navigation becomes discrepant or in need of repair.

NEED: Provision of the applicant's contact information is mandatory, as it will allow the Coast Guard to contact the owner should there be a discrepancy or mishap with the permitted aid to navigation. Failure to provide the required contact information will lead to disapproval of the private aid to navigation application.

FORMS: CG-2554 and CG-4143.

RESPONDENTS: Owners of private aids to navigation.

FREQUENCY: On occasion.

BURDEN ESTIMATE: The estimated burden is 3,000 hours a year .

DATED: December 19, 2011
